

Course Description

Course Aims

The aim of this course is to give you knowledge of the structure of the IELTS test and the kinds of tasks candidates do on the test as well as give you ideas how to help your students achieve success on IELTS. As a teacher of English, you may already have a stock of skill-building activities up your sleeve, but this course will look at how the four main skills and a number of micro-skills can be developed and practised with the IELTS test in mind.

This course is for you if your employer asks you to prepare students for the IELTS exam.
